NOTES

This was a follow-up inspection related to the routine inspection conducted on 04/30/26, during which a Red "CLOSED" placard was issued for a R4 violation (repeated five consecutive times) for hot-holding.

A long-term corrective action plan for hot-holding violations was submitted to the health department and approved. The follow-up inspection was conducted at the facility to verify the corrections. The hot boxes were removed from the kitchen and the remaining corrections for violations on the 04/30/26 inspection report were verified. The health permit was reinstated today, 05/06/26, at approximately 9:30 AM. The Red "CLOSED" placard was replaced with a Yellow "Food Safety Alert" placard. A follow-up inspection will be conducted at the facility in 5-7 business days to confirm that the facility has implemented their long term corrective actions.
